

Covid-19 Leader Briefing Sheet

These guidelines are in addition to the government guidelines and site rules.

Status Amber: Small group face to face Scouting.

Groups must complete their own activity risk assessment

Maximum Group size is 15 including adults, none of whom must have been in contact with anyone who has been advised to self-isolate nor exhibited any signs of Covid-19 in the last 14 days.

All visits MUST be booked in advance via the Booking Secretary on 0845 053 3499.

Allow one group per field with a max of three groups on site at any one time. Each group would be responsible of maintaining social distancing including one in one out in the toilet blocks.

Car parking will be allocated at one carpark per group per field - site road allows for arrival times to be the same. This would need to be reviewed depending on Group size.

Site and toilets will be allocated at time of booking and are matched at one per field for sole use of the group booked in. Each group will be allocated a toilet for uni-sex use on their allocated site. Leaders to ensure their party only use this toilet and it is cleaned at the beginning and the end of their session. Site will provide cleaning materials but not PPE.

Booking would be for use Monday to Thursday only - not weekend to allow for a three-day isolation followed by site cleaning to take place between groups.

In line with government guidelines the site activity areas would be available for use but would need to be booked by the groups. Due to the nature of these activities they could not be deep cleaned so groups would be responsible to ensure the users hands are cleaned immediately before and after using the activity. Rafting using site equipment will remain closed.

The above guidelines will be reviewed on a two-week basis or when Government/Scouting guidelines are changed.

Date : 10th August 2020
